

Jadual 1. *Eigen values dan total variance explained bagi konstruk Ibadah*

<i>Initial Eigen Values</i>			
Komponen	Jumlah	% of Variance	Cumulative %
1	5.427	16.958	16.958
2	3.205	10.016	26.974
3	3.203	10.010	36.984
4	2.703	8.446	45.430
5	2.425	7.577	53.007
<i>Total Variance Explained: 53.007%</i>			

Jadual 2. *Rotated component matrix bagi konstruk Ibadah*

<i>Variables</i>	<i>Varimax-Rotated Loadings</i>				
	Faktor 1	Faktor 2	Faktor 3	Faktor 4	Faktor 5
<i>I perform my prayers five times daily.</i>	.718				
<i>I perform my prayers with full attention (khusyuk).</i>	.488				
<i>I feel sad when Ramadhan ends.</i>	.506				
<i>I recite the rites (zikr) for Allah.</i>	.638				
<i>I believe by remembering Allah I will be closer to Him.</i>	.563				
<i>I realise that there are two angels recording my deeds.</i>	.513				
<i>I recite the Quran everyday.</i>	.667				
<i>I act according to the teaching of the Quran.</i>	.705				
<i>I recite the praises (salawat) for the Prophet.</i>	.657				
<i>I make continuous effort to internalise the conducts of Rasulullah in my daily life.</i>	.659				
<i>I take care of my conduct.</i>	.506				
<i>I obey every rule even if I personally disagree with them.</i>	.441				
<i>I contribute my money towards the building of a mosque.</i>		.612			
<i>I attend a meeting when invited to discuss about Islam.</i>		.719			
<i>I join Islamic functions.</i>		.691			

<i>I give my things for Islamic charity.</i>		.670			
<i>I always believe that there is wisdom behind every event.</i>			.543		
<i>I support my friends who work for Islam.</i>			.664		
<i>I am willing to help the victims of natural disaster.</i>			.701		
<i>I am prepared to fight for my country when needed.</i>			.564		
<i>I will ensure that the food taken by me and the family is halal.</i>			.448		
<i>I schedule my time to avoid stress.</i>				.805	
<i>I write my ideas properly.</i>				.801	
<i>I exercise my brain by thinking serious matters.</i>				.663	
<i>I report to the authorities if I have proof of bribery.</i>				.435	
<i>I spend less and save more.</i>				.513	
<i>I take care of my health.</i>				.533	
<i>I join the effort to combat social ills.</i>					.685
<i>I participate in drug prevention efforts.</i>					.834
<i>I participate in campaigns promoting life-long learning.</i>					.724
The Bartlett's Test: $\chi^2(496) = 7806.777, p < .001.$					

Jadual 3. *Eigen values dan total variance explained bagi konstruk Amanah*

<i>Initial Eigenvalues</i>			
<i>Komponen</i>	<i>Jumlah</i>	<i>% of Variance</i>	<i>Cumulative%</i>
1	4.254	14.180	14.180
2	4.239	14.131	28.311
3	3.657	12.191	40.502
4	3.502	11.675	52.177
5	2.658	8.860	61.037
<i>Total Variance Explained: 61.037%</i>			

Jadual 4. *Rotated component matrix* bagi konstruk *Amanah*

<i>Variables</i>	<i>Varimax-Rotated Loadings</i>				
	Faktor 1	Faktor 2	Faktor 3	Faktor 4	Faktor 5
<i>I put effort to perform my duty as khalifah.</i>	.665				
<i>I can list down my role as khalifah.</i>	.756				
<i>I persuade my friends to do good deeds.</i>	.695				
<i>I am a good role model to my friends.</i>	.671				
<i>I help to improve the behavior of my friends.</i>	.770				
<i>I consider any implications before taking any action.</i>	.565				
<i>I give my advice when bad deeds occur in front of me.</i>	.568				
<i>I report to the authority when I see people committing crimes.</i>		.498			
<i>I advise my sister when they dress inappropriately.</i>		.767			
<i>I continuously encourage my family to cover their aurat.</i>		.784			
<i>I avoid socialisation that will lead to forbidden relationship.</i>		.651			
<i>I report to the authority if I know any of my friends take drugs.</i>		.626			
<i>I continuously encourage my friends to cover their aurat.</i>		.668			
<i>I obey Allah in all matters.</i>			.671		
<i>I follow Allah's command and guidance even when they are contrary to my own desires</i>			.591		
<i>I seek the pleasure of Allah in everything I do.</i>			.658		
<i>I repent (taubat) to clear my sins.</i>			.662		
<i>I follow the advice of the Islamic scholars (ulamak).</i>			.656		
<i>I recount my sins before I go to bed every night.</i>			.564		
<i>I avoid using words of anger towards my</i>					

<i>parents.</i>				.501	
<i>I pray for my parents in my daily prayers.</i>				.673	
<i>I obey my parents.</i>				.717	
<i>I take care of my neighbour's property if he is not around.</i>					.671
<i>I take care of my friends' dignity.</i>					.591
<i>I honour my friends in their presence and absence.</i>					.658
<i>I never betray my friends.</i>					.662
<i>I realise that people watch my actions.</i>					.656
<i>I am aware that I will be blamed for my faults.</i>					.564
<i>The Bartlett's Test: $\chi^2(435) = 9928.088, p < .001.$</i>					

Jadual 5. *Eigen values dan total variance explained bagi konstruk Ilm*

<i>Initial Eigen values</i>			
<i>Komponen</i>	<i>Jumlah</i>	<i>% of Variance</i>	<i>Cumulative%</i>
1	4.595	28.719	28.719
2	4.157	25.980	54.699
<i>Total Variance Explained: 54.699%</i>			

Jadual 6. *Rotated component matrix bagi konstruk Ilm*

<i>Variables</i>	<i>Varimax-Rotated Loadings</i>	
	<i>Faktor 1</i>	<i>Faktor 2</i>
<i>I regard learning from experience is very important.</i>	.607	
<i>I regard gaining knowledge as form of Jihad.</i>	.576	
<i>I feel closer to Allah when I gain more knowledge.</i>	.664	
<i>I regard study as a life-long effort.</i>	.768	
<i>I view problems as a challenge in life.</i>	.741	
<i>I share my ideas with others.</i>		.699
<i>I make detailed analysis on a given issue.</i>		.827
<i>I make continuous effort to internalise the knowledge I gain.</i>		.799
<i>I apply the relevant knowledge in my daily life.</i>		.699
<i>I contribute my idea in discussions.</i>		.679
<i>I put effort to complete my task on time and efficiently.</i>		.554
<i>The Bartlett's Test: $\chi^2(120) = 4601.341, p < .001.$</i>		

Jadual 7. Analisis Kebolehpercayaan

Konstruk	Dimensi	Bilangan Pembolehubah	Alpha	Standardised Item Alpha
<i>Ibadah</i>		30	.918	.920
	<i>Fardhu 'Ain</i>	12	.871	
	<i>Fardhu Kifayah – Deen</i>	4	.821	
	<i>Fardhu Kifayah – Self</i>	5	.681	
	<i>Fardhu Kifayah - Aql & Mal</i>	6	.798	
	<i>Fardhu Kifayah – Nasab</i>	3	.801	
<i>Amanah</i>	<i>Khilafah – Amar Ma'ruf</i>	7	.876	
	<i>Khilafah – Nahi Munkar</i>	6	.869	
	<i>Accountability – Allah</i>	6	.873	
	<i>Accountability – Parents</i>	3	.736	
	<i>Accountability – Society</i>	6	.849	
<i>Ilm</i>		.892	11	.888
	Knowing	5	.777	
	Doing	6	.870	
Nilai keseluruhan Cronbach's Alpha bagi instrumen: .96
